

Product Overview

The TEGMART TGMT-HS-WC aluminum water cooled heat-sink block is a great product for optimizing power generation for your Thermoelectric Generator. It is designed to be used in conjunction with the TGMT-HE-WC aluminum water cooled thermoelectric module heat exchanger with fan and the TGMT-HS-WC aluminum water cooled heatsink block for the thermoelectric module.

*The TGMT-HS-WC Aluminum
Water Cooled Heatsink
Block for Thermoelectric Module*

Specifications

Length	2.9 in (76mm)
Width	2.6 in (68mm)
Thickness	.3 in (8mm)
Weight	2.4 oz (70g)
Material	Aluminum
Tap OD	7.5mm
Surface	Anodized
